

# LLBN SPECIAL INSIDER

## UPDATE

### NOTE FROM THE PRESIDENT:

As you can see, the need for funding remains, and we have only one source for this—you and other supporting donors like you. Would you please consider making a generous gift today?

You know why you should do this—to spread Christ’s message and to give hope to those seeking a better life.

And, as you watch what is happening all over this well-worn Earth, it seems plausible that we are approaching the time of Christ’s return. Now would be a good time to honor Christ’s final message to His disciples: “. . . and you will be my witnesses . . . to the ends of the earth.” (Acts 1:8)

Thank you very much in advance. May the Lord

continue to bless you and those you love.

Ganim Hanna

“And you will be my witnesses . . .  
to the ends of the earth.”

Good things still happen. For LLBN, that was the opening of its new Broadcast Center on May 31. The on-air ceremony featured outstanding music and comments by favorite pastors. Viewers can watch this special program by going to the home page on the llbn.tv website.

This new building and the pre-existing studio combined mean the Network facilities now cover nearly 18,600 sq. feet. This extended space offers added capabilities for producing a wider number of programs that will reach a larger world audience. It will also allow LLBN to not just produce one program at a time, but to produce multiple, simultaneous programs over its three English and eight other language channels, with an Armenian channel also in the works.

“This new Broadcast Center is the result of years of planning, and generous viewer financial support,” said LLBN President/CEO Ganim Hanna. “In fact, our search for expansion options began in 2006. For the house staff and volunteers, the Center’s state-of-the-art technology will allow us to offer viewers more Bible-based programming, and for years to come. We praise God for this wonderful opportunity.” He added that LLBN will be celebrating its 27th year of broadcasting. What began as a simple local Christian cable channel with a few hours of programs and sermons in a local Loma Linda, CA church has now grown to non-stop programming that covers much of the world.

Thanks to every generous donor, the building's construction costs have been paid. But it is one thing to build a Center, and another to equip it. Therefore, LLBN has arranged for funding amounting to one million dollars to finish the project by further equipping the facility technologically with complex broadcast hardware. "We have taken this action in full faith that God will move the hearts of our many donors, and perhaps those who have not given before, to support this venture and repay this million dollars," said Hanna.

Throughout all of this project, and in its daily operations, LLBN has been very financially responsible, maximizing every dollar in its outreach. And all of this success has been due to God's blessings and the loyalty of its supporters.
